Aloha Gary

I have attached the unsigned cover letter and the Finding of Violations for Puna Geothermal Ventures. As Dan describes to Keith, this is the first step in the enforcement process and the cover letter does a good job of summarizing our findings. We plan to send this out this week, probably Weds or later. Of course, we will notify you and Keith when it actually rolls out of here.

Let me know if you have any questions.

Enrique

**Subject:** Puna Geotherman Ventures

Aloha

Attached are two documents regarding Puna Geothermal Ventures – cover letter and finding of violation. We are planning to send out the FOV this week, around Wednesday. When Enrique Manzanilla was out there, he mentioned it to Gill.

Gary was quite interested in hearing what we had planned so I wanted to give you a heads up too, before it went out.

Call me if you have any questions. We have a desk statement that Dean Higuchi will have access to , but we are trying to low key the announcement, as it is just an FOV, first step in the process.

Hope all is well, Dan
